There is high legal anthority that holds, however, that the governor would be justified in holding the surplus of the lease bid over the purchase money, and letting the legislature decide whether or not it should be paid back. There is still higher authority for saying that the governor would be mated; second, that stockholders of the Savannah News.

The following facts may be regarded as most conclusively settled: First, that the contract between the Central and the other roads above mentioned is virtually consummated; second, that stockholders of the Central will receive a guaranteed interest of six per cent, on their stock for the next seven years, during which time the road and its property and the capacity of the Ocean, steamship company in connection therewith will be greatly improved; third, that after the aforesaid seven years have expired a guaranteed interest of seven per cent, will be paid on the stock; and lastly that, as our correspondent expresses; it, the golden egg has been laid in Savannah's nest." On this auspicious result, so pregnant with the future prosperity of our city and state, we again congratulate our citizens. The Excitement Intense.

Augusta, Mr., January 12—Ebenezer Sproul has brought suit against F. Pillsbury, proprietor of the Maine Standard, for libel. The action is based on an article in Pillsbury's paper charging Sproul with bribery. It is intimated to-night that the programme of the fusionists will be to have either Eugene Hale or Professor Young arrested by the sergeant-at-arms and brought into the house to make a quorum. It now seems ding for the lease will not go higher than the lease is really worth—certainly not higher than the bidders will be willing to deposit as part of the payment in case they wish to buy.

PERSONAL GOSSIP.

There were four governors in the train from Atlanta this evening—Colquitt, Smith, Brown and Bullock—and one king—Mr.

Cole.

Governor Colquitt came down on the 2:15 train. The attorney-general, it is said, will not be bare. Governor Smith is here as a spectator and many others are on hand, and ticipating a great deal of fun in the scenes of to-morrow. It is said that Captain Jim English, of Atlanta, will be down to-night and will probably bid on the road. General Toombs is reported to have said that he would liked to have gone down and seen "the road stolen." He says it would be interesting to watch a sale since the time has come when a railroad may "be the subject of felonious aspertautterly impossible to get a quorum without the aid of the republicans and the failure to do so thus far has only strengthened the republicans in their position. The fuionists will exhaust every means of legally lecting a governor and council, but how such election can be had, or how, if had, it will be regarded by General Chamberlain is not known. There is a general impression that members from disfranchised cities will soon be allowed to take seats. Prominent fusionists applied to General Chamberlain Saturday for the discharge from duty of the Augusta police in charge of the state house, expressing the belief that the public property was not in danger. General Chamberlain replied, that if he discharged the police he should order two companies of militia to take their place. The gentlemen thereupon withdrew their

Brackett, of Belfast, assistant secretary. The following order was passed: Ordered, that a committee consisting of three members of the senate be appointed by the president, to report to the senate for its action, whether the senate shall call upon the justices of the supreme court for their opinion touching the legal organization of the senate for the 59th legislature and to report for the action of the senate such questions as the law and the facts require in the premises.

The members of the house were called to order by Mr. Hale. Mr. Wentworth, of Kettery, was made temporary chairman, and Gramandal Smith clerk, the latter calling the roll of members elect. All the responded to the call and were qualified by William Stratten, clerk of the court of Kennebec country. United States basis, the appropriation will be insufficient and the department's action would depend upon the action of congress. An increase has been made in response to the urgent demand of the people and representatives of the sections where made. The total appropriation for this branch of the service for the present fiscal year is \$5,900,000; of this \$3,800,800 has been expended in the first half of the year. The continuance of the present service would cause a deficiency of \$1,700,000, therefore the department had recommended an appropriation of \$2,000,000 and had a ked it early, so that it it failed the service might be confined within the limits of the original appropriations. The department thought the increase made was proper and a further increase was less at the present time, proportionately to its amount, than before since 1861. Its increase was evidence of business prosperity. The department believed it advisable to make a liberal appropriation for the service, and make it satisfactory to the people, especially as the government retains the monopoly of carriages. Of the estimate of \$1,700,000, \$432,000 was for 1,300 of 2,000 new routes established by act of congress during the past year and \$1,280,000 for increase

ABOUT MR. BLOUNT.

His Acts as Head of the Appropro-

Washington, January 9.- A late number of the Augusta Chronicle contained an editorial, embodying a stricture, on Representative Blount's "parsimoniousness," as a member of the house committee on appropriations; the same having originated in propriations; the same having originated in the columns of that stalwart sheet, the Baltimore American, which in turn, was pleased to charge it to its Washington correspondent, Mr. A. M. Sotello.

Now, I have the statement of this correspondent that he sent no such matter to his paper, and in proof whereof, he has volunteered and publised the following personal in his issue of the 8th instant.

sonal in his issue of the 8th instant.

During the illness of Mr. Atkins, the chairman of the house appropriations committee, Mr. Blount, of Georgia, is acting chairman. Mr. Blount won the gratitude of the merchants of Baltimore for his determined and vigorous opposition to the Roach Brazilian subsidy. He is one of the ablest democrats in the house, and is not only an uncompromising foe of all jobbery and corruption, but is able to detect both, no matter how cunningly disguised they may be, in order to deceive the uninitiated congressman.

to deceive the uninitiated congressman.

In conclusion, I beg leave to say that Mr. Blount has called upon himself the curses and ill will of some thousands of radical officials and jobbers who have employment and reside in this city, simply because he has guarded the public fund from their peculations. I confess they do not like his cause, but every sincere democrat sustains it, not only here, but in his state and district.

I learn that Blodgett has been relieved of his office as collector of the port of St. Mary's, and sent to Brunswick instead. There is a good bit of political ponderosity in Blodgett's corporosity, and it may be he has his thumb in the old man's eye. I judge so.

The plot would then have seemed to unfold itself in spite tutions to permit the Blaine conspirators of the author, but the reader would never have shaken himself quite clear of the mystery, no matter how rational or how simple the explanation. Mrs. Bryan, however, as if confusing the mysterious with the sensational, and desiring to avoid the latter, makes haste to take the reader into her confidence, and the whole plot is unfolded in the two first chapters. Thence forward she has no need to make a psycho ogical study of the double life of Millicent Weir, and no opportunity to analyze emotions. She is hurried forward by the nar rative to the end. Certainly the mysterious, which is a part of nature, and which enters into all forms of beauty and into all enduring works of art, is not to be ignored by a writer of fiction. Perhaps this borders upon hypercriticism, for certainly "Manch is a sufficiently remarkable story to give it a leading place in contemporary fiction, and we are inclined to pity the intelligence of the reader upon whom it will fail t make a profound impression. St. Louis Republican.

It is amazing that the republicans of Missouri should find nothing in the conduct of Governor Garcelon, of Maine, but cause for unmeasured condemnation. Are their memories so short that they forget the precedent that they themselves furnished him in 1866? Has their friend Rodman passed entirely out of their minds? Rodman was republican secretary of state, and it was his duty to accept the returns of election sent to his office, count the votes and determine who was elected on the face of them, without discretion. But he usurped judicial functions, assumed to adjudicate the returns before counting them, and to throw out a sufficient number of votes from various democratic counties to give the republicans a majority give the republicans a majority he legislature, and defeat Shields and Switz-democrats for congress in the Boone county Jackson county districts. Big Fees in Iowa. Iowa State Register

In the list of Georgia lawyers who have received biz fees The Atlanta Constitution puts Senator Ben Hill first. He received in one case a fee of \$140,000, of which \$59,000 were paid in cash. The largest fees ever got by any attorney in lowa are said to have been received by Mr. James Grant, of Dawenport, one of his fees from a railroad company having been over \$200,000. Mr. Grant is now thought to be the richest man in this state. He is said to have made over half a million dollars this year and last from his smelting works at Leadville. H. is more of a financier than a lawyer, and his great wealth from the law has been gained in large cases where his financiering ability aided his clientage more than his legal skill. He is a character—one of the homeliest of lowa men, if not the homeliest, and one of the kindest hearted He has no children of his own, and yet has raised, in his own home, and educated, and set up in business, some fifteen of the children of dead or helpless parents. The noble white men of Georgia are generous to the colored citizens. They raise the assessed value of their little belongings for taxation, putting fancy values on old carts, plows, rope harness, mules, and even listing at fancy prices the very humble household stuff of their cabins, and on this false raising of taxes on the poor colored people—of whom not one in a hundred has anything that would be listed in Ohio—they publish figures to show how the colored people are increasing in prosperity. Southern chivalry distinguishes itself by cheating and robbing the colored people.

Yet all that he is he is by the will of his Creator and his own effort. Upon his character are the marks of no architect except God, his own and the fostering hand of the common wealth, which carries the worthy and capable, beckoning them onward and upward."

Maine. Maine and Mexico may now pool their issues. Government by major-general, even as a tem-porary arrangement and to a limited extent, is a lovelty that no American citizen who values civil liberty will ever view with favor.

A Debatable Point. Williams, the colored statesmen, is bound to do something for his race. He propose to repeal the law against the intermarriage of white and colored people. Sill, it is a debatable point whether he is doing much for his own race by this action. The sacrifice is generally on the colored person's side when he or she marries a frayed out Caucasian.

The Independent Voter. The bridal slipper has been thrown with almost fatal effect in the vicinity of Apex, N. C. There was a wedding among the colored people, and at the close of the ceremony the bridegroom put his bride in a wagon and prepared to take her to his home. At this stage of the proceedings a negre who had travelled, and said he knew a thing or two about the customs of elegant white folks, stated it was always the style to throw shoes after the bride as she was driven off. The idea took immensely. As the happy couple moved away from the door the darkies jerked off their shoes and hurled them at the vehicle. —The Madison Madisonian celebrates the new year by putting on a new and attractive head and hoisting the name of Hon. Thomas A. Hendricks for president.

—The amateur walking-match in Augusta last week was a very interesting tournated the stress of the

of the society of the Cincinnati. This was an association formed after the close of the American revolution in 1783, and had branches in the different states. The Georgia branch has not been in existence for many year, and information is now desired concerning the records kept by it be-

sired concerning the records kept by it before it dissolved.

—Thomasylle Times: On last Tuesday, morning, at 9 o'clock, Bishop Beckwith confirmed a das of seven in the Episcopal church. Five of the class were baptized by the rector, Rer. Mr. Reid. Arranged in front of the chancel, with a warm flood of light streaming through the gothic window in the rear of the church, on the beautiful clear January morning, the candidates stood with bowed heads and took upon themselves the solemn vows of the church. They were all young, just entering upon the active areas of life; the current of their lives were changed; their aspirations and desires purified and refined by the impressive ceremonies.

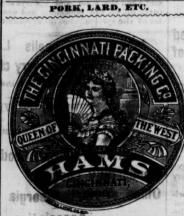

—Augusta Evening News: There came

A large congregation witnessed the solemn and impressive ceremonies.

—Augusta Evening News: There came down on yesterday's Georgia train from Washington, Wilkes, a man named Charles Avener, with his wife and three small children. Mrs. Avener came into the News office to-day and makes, in substance, the following statement: They were originally from New York before locating in Washington, where they have been living for the past four years. Yesterday they started to return to New York, Mr. Avener having sold out his effects in Washington. On arriving at the general depot in this city, he put her and two of the children on board the Central train for Savannah two hours before it was leaving time, telling her to remain quiet with her sick child, and that he would take one of them, aged two years, in anquiet with her sick child, and that he would take one of them, aged two years, in another car and attend to it. This was the last she saw of her husband and child. After the Savanuah train had started, the conductor came around and gave her the check for her luggage, together with a note from her husband which said that she must go note Savanuah and take the steement for on to Savannah and take the steamer for New York, as he had telegraphed her brother to meet her there, but not saying where he had gone. The distressed woman came back to Augusta on the up train, as she would not go any further without some tidings of her husband and missing child. She thinks he has gone to Columbia, as he had visited the place several times recently. She reported the case to police headquarters, who are making efforts to ascertain the whereabouts of Avener and the two year old child. The poor woman is in deep distress, and very sick besides, as is also her two months old child. Should the truant husband see this notice, he will know that his deserted wife and children have not gone on to New York, as he supposed, but are awaiting news from him in this city. ame back to Angusta on the un train

MACON, GA., March 31, 1879. From having been intimate for a number of years with the proprietors of Swift's yphilitic Specific, I have known much of manufacture and its use. There are men in the community-well-known citi zens-who were victims in early life to Syphilis, the most terrible curse that ever BABBITT METAL, afflicted the human family, and who have taken the S. S. medicine, and are now, to all appearances, and in their own belief, as free from taint of disease as the first man, fresh from the hands of his Maker. Delicacy of course forbids their public recommendations of this medicine, but I am allowed to refer the skeptic privately to those who will indorse everything that can be said in its favor. Being professionally muchd oppose to indorsing or recommending nostrums or secret remedies, it is with hesitation that I attach my name to this article; but I know whereof I speak, when I say that our sci-ence has not yet made public a combination equal to this for the purpose indicated.

in his own house, corner Elliott and Maga- the way through, as he ever is, natural, ine streets. " The story of the deed is this effect. George Kuegler was a butcher doing a good business at the corner of the above-named streets. He lived with his wife and only child, a boy of four years, in a room at the back of his

Yesterday morning at nine o'clock he left his place of business with about fifty dollars in money which he had taken from his till and his bank book as if with the intention of making a deposit. He stayed in town all day, and a short time before six in the evening he passed the meat wagon some distance this side of his stall and hailing the driver told him he might as well turn back, and added "I'll be away from here in about half an hour." The drver thinking that Kuegler was jesting drove on to his stall to deliver his meat as usual. Kuegler got there juxt in advance of him, and walking there just in advance of him, and walking quickly to the money drawer, opened it. Not finding what he wanted he called to his wife who was attending to his wife who was attending to some meat on the sidewalk in front of the the stall, and asked her where his pistol was. She replied, "I have hid it." Just then the meat wagon stopped at the door, and Mrs. Kuegler called to her husband, who was

still in the stall, to know if she and Mr. Charles Meyer, a friend of the family, could weigh the meat. Kuegler replied that she could take it if she wanted it, and without could take it if she wanted it, and without another word walked back into their bedroom. Mr. Charley Meyer, thinking that Kuegler was searching for his pistol for the purpose of having a difficulty with some one, followed him into his room and placing his hands upon his shoulders, told him that he was his friend and asked him what the transfer of the control of th

him that he was his friend and asked him what was the matter. Kuegler pushed him back with the words, "I'm your friend, Charley; leave me." The room was dark and his tone was fierce. Meyer became frightened and left him, going back into the stall. In three or four minutes after he left Kuegler's room he heard one pistol shot followed by the heavy fall of a man. Meyer and Mrs. Kuegler rushed into the room and found Kuegler stretched at full length upon the floor with the blood streaming from his mouth and the pistol lying by his side. Meyer started at once for a doctor, but it was uselest. Kuegler did not stir—did not speak. He was dead. The ball entered his mouth and was dead. The ball entered his mouth and ranged upward to the brain. The first paroxysm of her grief over, Mrs. Kuegler stooped over the dead man, and searching his pockets, drew forth his pocket-book. The money was gone—the bank book was gone. She found nothing but a receipt for his license, which he had paid that day. It amounted to \$6.75. She then exclaimed: "My God! my God! I see the cause! He has lost it gambling!" She afterwards told the reporter that during the summer heal husband lost seven dollars while gambling, and coming home about eleven o'clock the same night, walked up to the bed and kissed her, saying: "You love me?" and then went out on the sidewalk for the purpose, as he said of shooting himself. She jumped out of bed and running into the street, in her night-

and running into the street in her night gown, jerked the pistol from his head, and gown, jerked the pistol from his head, and having taken the cartridges from it, handed it back to him. He then walked back into their room with her and gazing upon his little fair-haired boy, who was asleep in his bed, said that he could not kill himself and leave him, and that they—meaning his wife and himself—would work together and make the money again. So when she searched his pockets last night and found that the fifty dollars and the bank book were missing she felt satisfied that he had taken his life on account of gambling the money away. In addition

gambling the money away. In addition to the money which he took from his drawer he had fifty dollars to his credit in some bank. She thinks the Atlanta National

his bank book instead of the money to some gaming house in the city. If he did so, his money is still in some bank and should be held for his widow, who will certainly need it. We hope the different banks will keep a sharp watch for George Kuegler's bank-book to-day, and not surrender one cent if it be pre-sented.

George Kuegler was a native of Alsace. He came to Atlanta about seven years ago. He was a genial, hard-working man, understood his business thoroughly and was prospering. He was thirty-four years of age and leaves a wife and one child to mourn his untimely death. The reporter talked with many of his friends last night—they all unite in expressing amazement at his rash act. They say that he drank but little and was not addicted to gaming. Besides he was a man of dicted to gaming. Besides he was a man of

Some enterprising parties have united together to construct an ice-house on the pattern of the famous building devised by the Empress Anna Joannovna 150 years ago. The house is to be completely furnished in ice—chaus, beds, stoves and everything else being of the same uninviting material. It is to be hoped that winter will be long enough and the attractions sufficiently great to insure the success of the

EDITORS CONSTITUTION: You must first permit me to express my thanks for the very sensible views, as I think, presented in your editorial last Sunday morning, in reference to the "capitol site question." Now that you have thought it proper to advocate the cause, it is to be hoped that the city council will feel the matter of sufficient importance to give it their favorable consideration and accept the proposition of the state without delay. In fact, it is hard to understand why it has not been accepted long before this; for it must be evident to every one who will reflect a moment on the subject that it is greatly to the city is advantage to do so. The trith is, the city is the only party to the transaction who has everything to gain by accepting this proposition, or everything to lose by r jecting it. It is a very great by accepting this proposition, or everything to lose by r jecting it. It is a very great to lose by r jecting it.

to lose by r jecting it. It is a very great-mistake to suppose, as some seem to think, that the congregation of St. Philip's church are to be the chief gainers. So far from this being true, there are very grave doubts in the minds of many of the members of that parish, as to the exjediency of making the sale of their "church lot" at the price named, or even at a much larger price—and there is a last Sunday morning, after the recent re pairs and frescoes was an event of such inusual interest, that it deserves an ex tended notice in these columns. The histended notice in these columns. The history of this church, while it attests the devotion of the Catholics to their religion, is an especial tribute to the zeal, energs and large-hearted liberality of the membership in Atlanta. To properly appreciate this remark, one should have seen the church Sundavin the beauty of its new fluish, filled with one of the largest congregations ever assembled in a house of worship in Atlanta; or Sunday night when the brilliant gas jets lit the lovely freeces and shone over a still even at a much larger price—and there is a very 'eci led opposition in the parish to its being sold at any price.

It appears, on inquiry of some of the ron.ingut members of St. Philip's that they are perfectly independent of the proposed sale, and that as a matter of fact the authorities of the parish are now at this arm day engaged in pentilation for the "I CANNOT TELL A LIE."

and a host of such large-hearted, liberal minded men, are certainly able to build when they feel disposed. Besides this, everybody knows that the lot owned by St. Philip's parish is, by all odds, the most valuable lot in this city. There is no other lot that can be compared to it and with the real estate boom, now just beginning to be felt in Atianta, this lot must rise in value very rapidly within the next few years, particularly so in view of the fact that the city hall square has been accepted by the state as the site for the "new capitol," which must be begun within a year or so at most. So that, even admitting that St Phillip's congregation are too poor to build without selling, it would be greatly to their advantage to hold their lot for the present and sell off building lots in the future, retaining such portion of the pressent square as would be necessary for church out of the question, there stands the case?
